DIVINE PROSPERITY

“GOD IS MY SOURCE! ~ As I Let Go, I Increase!”

~

INTRODUCTION

After moving into right thought and healing the mind, we have now healed the heart, and we have raised the quality of thought to reflect a constant awareness of the worthiness of the Divine Presence in us and as us all the time. What is there then? Right attitude and right activity, and Stage Four is: *“God is my Source. As I let go, I increase.”*

Step Four represents another stage of detachment, where we recognize that all the good that we have comes from the Infinite, God, which is the Higher Power, is our consciousness of supply and so on. It does not come from certain persons, places and things like they were something on their own. So...“God is my Source”, and I release myself now from attachment to particular persons, places, conditions, or channels that the Abundant Source, the Divine God Source may flow freely into and through many, many, many, changing, flowing, free flowing avenues...appropriate for the now.

Now, I am no longer thinking that a particular job that I may have is my source and I have to hang on for dear life. In

GOD IS MY SOURCE ~ AS I LET GO, I INCREASE!

the new light of understanding: “God is my Source”, I now know that a particular job was a part of the eternal action of Divine Supply flowing through my life, and I am very released about it. I am happy for it, but when the time comes for change ~ “I let it go”, I let it go with blessing ease, for I know I am in the flow of the Greater One Source of all my good.

God provides the sources, and I am the receiver. If you know that God is your Source you can flow over into the next, just flowing along with the stream and not getting stuck anywhere, getting out of tune, out of right timing. Talk about delaying yourself. Each time you get stuck on something, it causes a delay. It causes time to pass in your life, and resistance to build up, congesting the Infinite stream. Yet, the more you can affirm these Truths ~ “God is my Unlimited Source, working through appropriate persons, places and conditions”, the more you will prosper in freedom. So here we are moving up out of physical reference and the accompanying fear and attachment that ensues...free of the fixed state of mind, where I can only know what I can see, feel, touch, etc. at the moment. Now, we are moving into understanding the causal realm...recognizing a greater unseen Source, living in Highest God-Consciousness all the time.

My consciousness of Divine Supply and the eternal providing Law, “Love-in-action on my behalf” is my Source of every good I have. And my consciousness of supply becomes my supply. Then a person, place or thing may show up and give the great benefit to us, but realize the manifestation is not coming of its own. My consciousness of supply and knowledge of the Infinite Source ever available to me activates the very supply I need. And remember, your every thought and expectation should be based on Love. God’s thought is always Love, God’s activity is always Love, so when you think in that

DIVINE PROSPERITY

loving way, and in the Way of God...understanding the immense Love you are one with, then you will experience the optimum Divine Outcome, the God-condition, the Higher state of constant Divine and ultra-prosperous manifestation in your life.

This is the right attitude, causing boundless harmonious right activity. “God is my Source” helps you to appropriate your substance, to attract and get what you need, while maintaining dignity, letting the flow be. Again you are looking up, going beyond former experience and moving up to the observer position, looking from the great overview.

Observe the good flow. Good comes and good goes in a natural movement, like iridescent waves on the sparkling sea, and then more good comes along. Get the sense of “I move from good to good, I move from success to greater success, I always move from the lesser to the Greater.” So we bless it all. As good comes to us, we bless it. “This is wonderful and great that I have it”. Bless it while using it. Bless it when it goes. “Thank you for being with me and now I open to receive.” “What is next, God? I trust to you!” Never get stuck, never stop, always be in the love condition... blessing when you receive, blessing when you use, blessing when you let it go. That way you are existing prosperously in the absolute now, the moment of Divine Consciousness of Supply.

Strive to maintain that Good consciousness of the eternal Presence of Love as your supply all the time. As for remorse, we don't know what it is. To prosper completely, we must transcend these things. There is no good reason for remorse ~ “You should stay. Why are you leaving?”...Holding on, instead of opening to receive of the radiant present means. Rather we say, “Thank you. It is time for you to go, and thank

GOD IS MY SOURCE ~ AS I LET GO, I INCREASE!

you for being with me and sustaining me. If it is time for change, whether caused by yourself or another, “Thank you for being with me, while you were here.” That is our inner dialogue, and we move right on in Grace, embracing the dignity of being “One with All that is”, ever conscious of our Divine and Eternal Source, ever connected to the one stream of radiant being, not splitting off and isolating, fixing onto a particular area.

Stage Four encompasses the release of attachment to any physical or material source. Rather we are lovingly immersed and recognizing the Presence of Omni-Supply, perfect and complete at every point, everywhere, and not limited or blocked in any way. There is no sense of limitation anymore, for now you know you are not limited to a particular source. You have the “All in the All”, you always have all that you need, for the thought of it. And you recognize it.

All the mantras of Divine existence and harmonious flow open unto you: “One door closes, another opens.”; “God is the need and the need met in perfection;” “Before you called, I heard.” The glowing Truth of the ever-moving perfection of Supply is the source of all the sacred mantras, all the heavenly statements you have ever heard or said. All these magnificent, flowing statements, reflective of Divine Being, have sprung from recognizing the beauty and bounty of this universe, and the way this universe works. Thus, at this stage ~ we are converting here all lower thought to recognize that “God is my Source”, and we are also then beginning to recognize money as Divine energy in action in our lives.

Here we are converting ideas about the material plane and the nature of money into ideas that money itself is an idea of spiritual energy in action, knowing Love is all there is.

DIVINE PROSPERITY

Money is Divine Love-in-action, substance and form. From God's point of view that is how money ought to be handled and thought of, as Love-in-action. All substance is Divine Energy, so we no longer think of money as material only, something apart from God. Money has no power of itself and no meaning, except that which we endow it with. And, we sanctify money, when we use it, as spiritual energy, energy of Divine Love... and all right value and right use of money is derived from Love itself, from Highest Patterns of Love. Now, we sanctify our resources with Love, recognizing money as nurturing power, spiritual energy manifesting as money, and in this universe it certainly is, containing much power for good, when used in Love.

All Laws of right and perfect energy circulation of Love, Divine Substance and flow, and the appropriation thereof, operate here...and at this point, "God is My Source" is the singular realm of rulership that we place all of our money under, whenever we think of it...Eventually, whenever you have a need, it will be just like dipping your hand into the infinite stream, appropriating and taking what you require with ease. That is how easy it should be for us. When we know money and all forms of supply as God's Love and perfect sustaining Substance-in-Action, with a thought, "I need this now"... supply shall always manifest in perfect right ways,

An awesomely prosperous thing happened to me that proves just how magnificent and perfect the Divine flow can be for us, as we remain in right relationship with our Source. I had been up in the mountains, truly having just the most wonderful time, but I had a class that was scheduled for later that day in the City. Although I truly wanted to stay, my love of my students, who I knew would be so much looking

GOD IS MY SOURCE ~ AS I LET GO, I INCREASE!

forward, prevailed...and so, I began the drive to get back in time, leaving a little room, in the case I needed to stop.

Well, half way down the highway ~ suddenly my car stopped, and just would not go any further. Something was really wrong. You can imagine just how shocking that was, as I looked for someone to help. Fortunately, there was a station right there, and I learned that a mighty expensive part had to be replaced, but they did have it and could do the job right away. Now this would be a costly procedure, and the repair persons wanted cash. Here was the moment of choice. Do I take nearly all the money I had in my bank account out to pay for this most necessary repair, get the job done, and possibly get back to the City just in the nick of time?...Or, do I cancel everything, return to the hotel, and work things another way?

And so I thought of my students waiting, remembered the importance of blessing and decided to just use the cash I had on hand. In spite of anxiety about this ~ I just blessed it as I handed the wad over, giving thanks that at least I did have it on hand for this emergency situation, knowing that if I really believe “God is My Source” ~ that loving choice would cause right replenishment to quickly come to me in some way.

And so, the large repair was finished in about two hours, and, still blessing and still somewhat in shock, I continued my ride down the mountain highway, arriving in the City with about five minutes to spare...where the most wondrous demonstration happened for me.

A student had been waiting to come in, and so ~ I happily opened the door, whereupon I was instantly and oh so joyously presented with a \$5,000 check, straight from the Hand of the Creator, in support of upcoming projects. I will never forget that moment, as the Principle of Perfect and Eternal

DIVINE PROSPERITY

Supply operated so instantaneously in this way, and my Gratitude to the Infinite and to my wonderful benefactor was so full and beyond any words to describe. My Faith and willing release had proved me true, more than I ever could ever have expected.

Strive to flow, flow, flow in right circulation. See money as constant spiritual energy, money always available for the asking and for any good and noble purpose under Heaven. Convert every idea of money into an idea of spiritual energy, God's nurturing energy in form, as money...the great Providing Law, appearing as money. If we could see all things, we would just see energy wouldn't we? We would just see the movement of energy happening. The overall flow is either looking good, with good geometry and configuration, looking good, or it is not. Sanctifying money with Love, and recognizing its immense nurturing power, causes all right Laws of the Universe to work for you at optimum capacity here.

"God is the Spiritual Force and the Source behind, the Abundant Principle in my life...and God is the substance and spiritual energy of all the money I have." Every dollar bill says "In God we trust". Imagine handling your money and your assets, all your assets, whatever they may be, with this Divine Consciousness.

Now if you handle everything knowing this is the substance of God, this is spiritual energy, this is beauty, this is whatever life-giving and perpetuating and supporting substance you need, you will have the Light of all being with you. You shall have hands that are magnetic, and when you hand something over, you will hand it over with the full awareness and Highest Consciousness, knowing it goes and does its perfect work. And, when you receive, you shall receive in full

GOD IS MY SOURCE ~ AS I LET GO, I INCREASE!

consciousness of the Divine sustaining substance being given to you. You will know the full measure of what you have received.

And so this Mind of Light goes into your hand literally and your hands become luminous. And you can apply the Light of Divine Increase, wherever you choose to direct it. Since it is spiritual energy and it is limitless, the way to get beyond numbers and limitations is to apply the Light of Increase. Take any area in your life that you want to increase and envision the light, pouring in, around and through, the Light of God increasing, magnifying and multiplying. Direct the light where you want... into your bank account, into your income, into your relationships. Wherever you need, you can direct that light and then you increase the light to the magnitude of Divine Wholeness...Divine wholeness pouring through wherever you need increase. This process is particularly very good. In your mind's eye increase the Light to the Divine state of wholeness, to the level where there would be no complaints and no problems remaining, and affirm: "God's Light is there, the Light of God is there increasing, expanding, and fulfilling", and envision that energy happening. I often affirm: "The whole Christ is there." The whole Christ is there, and I can see the whole energy of light just sweeping over, in, around, and through some condition, and transforming it and making it perfect.

"I Christen you perfect". Christen everything perfect. Blessing is great power. "I Christen my God-bank accounts, my God-relationships perfect." "The whole light is there, healing and prospering all that needs to be. I Christen you perfect." In this moment, you are re-naming all in your world, and you are reconnecting with the ultimate Source of your Life. You are renaming all these things of your life, all areas of

DIVINE PROSPERITY

involvement and concern...with the Divine Name. “I call you God.” “There is none but God there now.” Now, to cure difficult situations, we don’t waste our vital energies, complaining: “This is lousy, that is lousy”. Rather, we immediately move into the constructive energy of Divine Solution. Above and beyond appearances and realizing consciousness is all, we say: “My accounts are God’s accounts.” We christen all anew. Whatever I have called imperfect, in my lower state of consciousness; I now call perfect, realizing that the difficulties I attracted just showed up as a result of my consciousness at a given time. Consciousness first! Consciousness is All and always precedes demonstration!

Practice loving all. “I love all, all love me.” “I prosper all, all prosper me.” This mantra is instant freedom. “In beneficent freedom, all love me.” This freedom is that sense of free-lovingness, with no sense of stuckness anywhere. Really realize we cannot lose that which is ours through release. When we live in loving freedom and release, we just give everybody more room to breathe and have fun, and this confidence in our never-ending Divine Source of Supply just yields more prosperity. We newly establish ourselves in the flow, always listening for Divine Guidance, and we know, and we affirm: “I know what to take on and when to let go, for Divine wisdom is guiding me. I am in the flow. I know when to give, I know when to receive. I am in the flow.” Establish a dialogue with your habit, tell it the Truth.

An individual asked me: “How do I get out of it? I have a bad habit where I always create the money, but then I lose it.” In itself, here was a good habit that this individual had firmly developed, yet it was mixed with the negative side of loss, and so I shared with him this simple tool for raising yourself exponentially. “Well, if you want to create a new

GOD IS MY SOURCE ~ AS I LET GO, I INCREASE!

pattern that seems to be more Godly to you and more flowing, more balanced, with no turbulence and no loss, then just first of all simply begin to give thanks in your heart that you are established in that pattern and describe it to yourself, and you will find that you will start changing little things without even thinking. Your subconscious mind, the perfect knower, adjuster and doer will go to work for you, and you will see that you don't have that old pattern anymore.”

You can change whole patterns by giving thanks that you have the Divinely Desirable Pattern of wholeness instead. Again, your word and inner idea always precede any demonstration. When you find yourself stuck in matters of prosperity, there is always a feeling underneath that needs healing. Maybe you forgot the Truth, and began to think some particular job or person was your Source, and there will never be another. If you look within, you will find that somewhere there will be a feeling underneath and you can ask yourself: Is there anything that I am feeling here that I need to heal? What thought is underneath? So, remember ~ when you are stuck, there is always a feeling arising from a negative thought underneath.

In reality, nothing is ever blocking us, or our prosperity from the outside. It is an inner congestion that has happened, and caused us to temporarily move out of the blissful principle of Universal Circulation. And, if we are congested somewhere in our life, in our emotional or thought/feeling structure, of course this will show up as restriction in our finances or somewhere else.

Strive to become aware of the thought/ feeling underneath that needs healing, and that is producing the congestion...and heal it through unifying with your God Self.

DIVINE PROSPERITY

Remember the Law that you have to live by is Perfect Circulation, so you can imagine that anger or lack ideas or unresolved feelings congest everything in sight, because of this natural Law of Circulation and the Law of Love. Always ask yourself, what is underneath?

Now, one way of getting out of hard feelings is to affirm, no matter how it appears: “God meant it for my increase.” Take the negative thought to the opposite positive, constructive thought... to the equivalent spiritual opposite... in other words: “This event is not for my devastating loss, but for my magnificent increase.” Let us say it appears that you lost everything. This is the judgment and opinion over a circumstance. The circumstance of itself is in fact neutral, and will become for us what we name it to be. So, be the good alchemist, recognizing: “God meant that for my increase. God meant that for my gain!” There is no loss to begin with. There is only increase, if I know that this is so. Practice thinking in terms of the spiritual opposite of any apparently negative condition, Just bless the whatever and affirm; ”God meant it for good.” In the moment, you don’t have to understand why this is so, but you must know that this is God’s Universe. And, as you say the good words of increase, it will become apparent to you how this Divine intention is so.

Your results in any matter of prosperity are all in your point of view. Realize this is God’s Universe of Perfect Supply for every need, no matter what appears to be going on. At the critical moment when I need something, what do I say: “There is no supply in sight?” Do I call up another idol of lack, or do I get still and affirm: “This is God’s Universe of Perfect and Unlimited Supply, of Infinite benevolent ways and means, and my need is perfectly met.” Learn to go to Principle immediately, so there is no break in your flow.

GOD IS MY SOURCE ~ AS I LET GO, I INCREASE!

Now realize all others are God too. Although we say that there is only one Source, we also realize that the Source does work through persons, places and things. We realize all are God, whatever the name may be. God, the living Principle is within all, is all names, yet knowing no individual name. God is all means. All is God. Release attachments, dependencies, and wanting to control, so now your abundance can flow without limit. Too strong attachments cause limitation, either with those we love, or with those we have strong reactivity to, either way. Hate is merely love in the other direction, and binds us just as strongly. It is all energy.

Catherine Ponder tells a great story about the power of release, and she is such a great prosperity consciousness leader. A young man, who was of great help and support to his mother... wanted to go to graduate school in Europe for his Masters Degree, and so he left and the mother at first had a hard time dealing with that, but, knowing the Law, she knew she had to get into the Principle, affirming that the uncomfortable change was prospering her and prospering her son as well. And so, her words came to be. Now, he has come back with all kinds of strength and energy and skill, and is bringing great abundance into her life. But if she had enforced her attachment on this person, in this case her son, it would have restricted his life and her life, so you see how important freedom is to your own prosperity.

Whether it be love relationships, jobs, or income, whatever it may be, maintaining an attitude of loving freedom towards the other is very important. Learn to release with a blessing, let the spaces in between give adequate room to those you love. When you release, declare: "I bless this person, place or condition when it comes, as I use it, as I let it go. "Learn to release with a blessing, to declare the completeness.

DIVINE PROSPERITY

When you bless something, you are constructively completing the activity, and now the energy is free to move on. So, we declare complete good. “God is my completeness, there are no other Gods before me.” Realize, whatever the circumstance, God meant it for good. Release all fear, changing fear to knowing the Truth of your infinite assuredness and security in God, knowing the sublime Truth of your Infinite and ever-ongoing supply. Random fear thoughts and of anxiety are resolved in knowing the Truth of Divine Love ever at hand, in the many sustaining forms...in knowing the Truth of God’s Abundant Universe, and radical reliance on the Perfection that is. When we say this universe is Perfect, we mean it is Perfect, Whole and Complete at all times. It is not missing anything ~ your good is not stranded somewhere, afar off. It is perfect in every aspect, so we learn to accept these ideas, that we can stimulate their awesome benefits of Divine health, well-being, and wealth in our lives.

Realize that whatever good that you have ever had in your life, that was no accident. You drew it to yourself, you drew the good and you are the good consciousness that every re-creates new and lustrous good in ever new forms.

The Law of Perfect Supply doesn’t know names. One of my greatest teachers said to me: “Who cares where it comes from, so long as it comes?” The Law of Circulation doesn’t know names either. Practice right receiving in recognition of the flow before, during and after. Thank you before, during and after any wonderful demonstration.

In summary Stage Four is the recognition that “God is My Source...As I let go, I increase.” And, all the Laws of Perfect Circulation operate here. The more I circulate, the more I prosper. It behooves us to let go and free as fast as we can,

GOD IS MY SOURCE ~ AS I LET GO, I INCREASE!

so we can circulate that much faster, always maintaining seamless contact with our awesome Source. Let us just now do a bit of Divine introspection, contemplating this very profound question.

ENGAGING THE PROSPEROUS FLOW ~
HEALING BLOCKAGE

Drawing a deep breath, filled with all the Light and Love that is...let us each look within. Now, in the Holy Silence, ask yourself: Where are you stuck right now?

Think about the major area where you are stuck... where you stopped in your quantum leap, in your major demonstration that you want to make. Where are you stuck? What do you think caused you stop moving forward? Knowing there is always a thought/feeling underneath, ask what thought/feeling do you think might be causing this congestion.

What can you now know that will once again move you into the flow and empower you to establish the good you have in mind?

Now, know that you shall always move into this bright new understanding, anytime the old thought/feeling should arise. Infinite Principle of all supply is yours forever now. There is no more stuckness and no more delay. You are moving forward in peace and plenty. It is so wonderful!

And so it is!

LESSON IV

GOD IS MY SOURCE! "As I Let Go, I Increase!"

~

**DIVINE PROSPERITY
THE UNEXPECTED INCOME PROGRAM**

Dear Participant:

Our Highlight theme is: Lesson IV ~

"God Is My infinite Source! As I Let Go ~ I Increase!"

In order to keep ourselves open to the constant flow of ever-new supply, ever moving in our lives in spontaneous, wonderful and unexpected ways, it is important to always maintain a consciousness of highest freedom, appreciation and love, fully enjoying the blessings of current sources, and being willing to let go with ease and gratitude those sources we have been accustomed to, when they have fulfilled their purpose in our lives and are ready to go.

In this way we establish a clear and open path ~ that God, the Infinite wise chooser of all appropriate channels, may send in the new, and that the natural energy of Free-Moving Supply may continue to flow, circulate and enrich our lives without obstruction.

GOD IS MY SOURCE ~ AS I LET GO, I INCREASE!

To empower your daily treatment/meditation all throughout the time you are working on this stage, please begin by *formally making your Accompanying Lists of all sources you are aware of having any anxiety or tension of too strong attachment around.* Declare that you are now releasing all channels of past and present to their greatest good, and, at the same time, making room for your new optimum increase, now. Refer to this list as often as you need, daily letting go.

Remember it is of ultimate importance to **maintain your attitude of freedom, love and trust in the Divine**, so that you never become bound to any one source and that you never develop any false fears around your supply that could only cause restriction, delay and limitation. So many unwanted conditions are created by false ideas of a need to hold on (attachments) and belie the Loving Presence of the freely moving and freely given Eternal Supply of God! **Remember: In letting go, you never lose the good that is right for you, now.**

Declare to yourself:

"Right Now, I heal all fears surrounding supply in the perfect awareness:

God is the Source of my eternal and ongoing Boundless Perfect Supply...The Eternal Ceaseless Supplier of All my Good - In Most Perfect Ways!" And So It Is!

Blessings of Love, Light and Richest Prosperity,

Reverend Dr. Linda

LESSON IV

*"GOD IS MY INFINITE SOURCE"... AS I LET GO ~ I
INCREASE!*

DAILY MEDITATION ~

(Words of Truth to speak to yourself silently or out loud).

Right now, I realize that there has always and ever been only One Source to all the good that has ever or shall ever grace my life ~ One Source to the good of the past, good now and good to come!

And that Is God ~ the absolute, prolific and sustaining energy of all of life!

I recognize that behind every manifestation of good is the Atomic Energy of God-In-Action ~ sustaining Me in all my ways. *I Am rich in God ~ never lacking of any good thing.* And I Am never deluded into thinking that any person, place or thing has ever been the Actual Source of my good. Though I praise all in my world and practice an attitude of gratitude without flinching, even to the least and the greatest alike, I now see I Am never dependent on any particular one; so I let

CENTERING WITHIN

abundant sources flow in and out of my world at the right and perfect Divinely appointed times ~ always with the ease and confidence of knowing ~ **God Is My Source!**

I recognize it is the one and only intention of the Infinite and the Universal to supply Me eternally, richly and completely ~ to hold Me ever in Its abundant graces, that *I may continuously regenerate my force*, and forever go forth to energize and carry on the great sustaining action in and throughout all. I am the inheritor. **The energy of Divine Abundance passes through my being!**

My recognition frees me now from any idea that God's nurturing and replenishing action ever stops at the passing of a particular source. Yet, I see, that as sources complete, God-Mind immediately flows over all the substance that is ~ over all, in all and through all ~ to select anew the right and perfect ways, means and new channels of my good ~ appropriate to Me, now.

I Let God govern the channels, as I govern my true heart of faith, right knowing and right recognition.

Thank You God ~ Thou art so great for Me! Even now, Thou dost fully in-fill Me with the energy of Thy dynamic sustaining force. Even now I see and experience all the moneys and all forms of abundant being around Me multiply and increase with Thy magnitude and supreme power. I see and experience lavish outpourings of Thy prolific abundance manifest ~ **right here in my life, right now ~ right before my very eyes!**

Thank-You for the perfect magnificent gifts of increase Thou dost bestow upon me now. As I have loosened all tight holds on connections of the present, with a sense of completeness and gratitude... Instantly, my right and perfect new mega sources appear. And I continue to increase splendidly in

GOD IS MY SOURCE ~ AS I LET GO, I INCREASE!

affluence and abundance of ready moneys, miracles and all good things now!
