EXPANDING HORIZONS OF MIND!

INTRODUCTION

In celebration of new beginnings ~ Dr. Linda discusses the **Alchemy of Thought Patterns** that need to take place in order to successfully establish **Highest Levels of good** in your life, reflective of the **Divine Self** within ~ ever one with God and all that is **Universal Love**...unto limitless horizons of accomplishment.

Rejoice in the “Unlimited” in you.

At the end of this talk, you will find a centering meditation for grounding the Principles discussed deep within.

EXPANDING HORIZONS OF MIND

“I Join My Mind With the Limitless Mind of God!”

Love is all that there is, and when this noble and life-giving quality is all we are extending into our universe, that is when we feel most true to ourselves, and the closest to that which we are. In such moments, we touch the very heart of God in us, and our life experience becomes magnificent as we dissolve all barriers and align all with Divine Love.

We have been looking at the sequence involved in lifting consciousness to its point of maximum awareness. The first step, we discovered, was beginning to consciously identify with our Divine and Unlimited selves. And now, from this free, evolved vantage point, ~ we are beginning to use the Unlimited Mind of God as our singular reference point...that Infinite Mind of Spirit, the great I Am, and its great body of Divine Thought Patterns. Now we are elevating our consciousness, striving to perceive and to know what God or the life force knows about this universe and about us and to think what God or the life force thinks and

EXPANDING HORIZONS OF MIND!

knows to be the One and Only Truth about us, each its very own beloved creation. Now we are thinking in terms of harmony, courageousness, goodness, completeness, the havingness of it all, and the fundamental rightness of all being.

How do we now make that most significant chiropractic shift in mind, where we newly empower our lives by learning to feel, see, and perceive everything in our lives as good, regardless of appearances? Strive to understand the magnitude of this Great Principle of Conversion that cannot be understated. It is the key force that begins to revolutionize our lives and our experience when we can sweep up all in our minds into a radiant capsule of inevitable good. The destiny of any experience lies solely in the way we receive it. Are we knowing beyond a shadow of a doubt that each and every experience contains the essence of some good within and for us?

Now, when we are thinking this way, we find ourselves at a new point of power, and we can begin to plumb the depth of life-giving good that is indeed present for us to gain. We have an open mind. We are open at the top as I've heard said very often. Stay open at the top to receive of a new idea about a situation.

Thus, in this elevating process, we link up first with God, and then we begin to think in terms of the ineffable and all-encompassing wholeness, peace, beauty and abundance of the Divine Nature. You can see and feel it everywhere. We bring our

REVEREND DR. LINDA DE COFF

minds to the conscious recognition of the essential nature of this universe, and we bring it into definite claiming for ourselves and our lives as an integral part of the great universe that we live in.

Once we have evolved our minds through vigilance and through conscious practice to join with the One Mind of Infinite and unencumbered possibility, no longer relating to that limited experience of the little self or the forces of popular beliefs and notions of any time period or background, but to the Great Mind, which we may use, and which every genius uses, every artist uses...we become free of all restrictive notions of the past.

Poets use that mind to write their lofty poems, touching our hearts and reaching far into comprehension of Spiritual Realities, soaring on Unlimited Divine Inspiration. Einstein used that great mind to receive of the glowing Truths of Light and Energy that were already present in that mind. All great minds on some level have stretched out to include, to listen to, to revere this Greater Mind of the Universe, in which all information, all knowing, every answer is already contained and already present. What a vast resource we have.

We stop limiting ourselves by checking out our goals and ideas, desires and aspirations with just our friends or limited referencing with past personal experience, something that we went through five years ago. Now, we stand pure, one with the Infinite ~ the only reference from which we seek affirmation.

EXPANDING HORIZONS OF MIND!

We stand clear and strong in the Divine Presence now with heart and mind open, saying, "You tell me. Greater mind, you tell me what it is that I need to know. You lead me. You guide me."

Once we have evolved our minds to join with the Infinite One Mind of unencumbered possibilities, we are truly standing at a point of all power, and we are standing and viewing from the highest vantage point of conscious awareness. We are ready to *Expand our Horizons of Mind*, to reach out into the cosmic grandeur, to create with the Mind of God the greater possibility for ourselves.... to encompass and embrace with our conscious acceptance, heretofore unknown territories of good.

You know, I have heard it very often mentioned that there is a nothingness. There is a certain nothingness out there, a nothingness, a void, a great unknown with which it is implied since it is so unknown, we must contend; or possibly, we may be victimized by its purportedly chaotic and erratic nature, so we've got to be prepared to do battle with this great unknown.

We have been raised to fear this great unknown, to step forward in Faith... for possibly, if we do take a chance on the new ~ the result may be something that we don't like or worse yet, we may suffer dire consequences at the hands of this perilous unknown, and the more one is thinking that way, the more he or she gets stuck...afraid to venture forward.

REVEREND DR. LINDA DE COFF

On the inner level, all these ideas have been instilled as you have been growing up, from the fear of the people around you. Now instilled in your mind, these paralyzing thoughts work there in the subconscious and prevent us from moving forward and from having a sense of adventure and free and High Trust that the universe shall sustain us. The more I rise in my consciousness, in understanding the true Divine Essence and Substance of Life, I more I see that there is always and ever not the unreliable nothingness, the fearful void, the dark nights of the soul. We've all experienced those feelings, right? Yet, there is ever the rich "Everything ness" of the Universe at our disposal.

Now, my teacher told me once, and his words just struck me so profoundly, shot right through me, went through me like a bolt of lightning, when he said; "Recognize that you are always at the point of all creative power." Thus, strive to realize that whatever you set your mind on is automatically powered and backed up by the entire universe. All creative forces are truly ever at your command. We are never helpless. We are never in the nothingness. Yet, we are ever in the glorious everything ness in which we live and move and have our being, and which we can use to manifest every form of good conceivable.

The fine white stuff of the ethers of existence ~ beautiful, brilliant creative unlimited dynamic energy of the universe is always at our disposal for higher molding and it is also impossible for us to be separated from this creative substance,

EXPANDING HORIZONS OF MIND!

which we are, which we are one with, and which we use within ourselves to bring out any new idea.

The Infinite is always providing us with expanded forms of good for us. That substance out there, in there, and everywhere ~ becomes expanded forms of good for us by means of the patterns of our expectations and expanded thought.

In the Bible, there are references to right preparation for the arrival of God (the many forms of Good in your life that have not yet appeared, yet on invisible planes are always ready to be on the way right to you) and the importance of the Divine Law of Right Expectancy. This pre-eminent Law of Creation is embodied in the recounting of the vestal virgins with the lamps lit with oil, preparing the vessels to receive.

Right Preparation of consciousness to receive of the good desired is so very important. The consciousness that expects good is going to receive that, and the greater the expectancy, rich in Faith and certainty, the greater can be the manifestation. Thus, as Spiritual Beings, we want to be in that sacred place always, and at that point of all transcendent expectation.

When you are in that sacred place, regardless of whatever is going on around you, the Truth of your Being, the Light of Being, the mighty Light of your unwavering expectations, shall eventually, if you stay with your radiant vision, take form and you shall be victorious, for the Great Law is “As I think, so it is!”

REVEREND DR. LINDA DE COFF

There never really is a void. There is always such overflowing Light and richest Life, the Invisible Light of All Creation, at our disposal.

And so, when you want to make a change in life, know that all creative invisible potential is right at your command. And this potential, in its inherent Divine and superlative nature, is good and life-giving fulfillment ~ thus, it is through learning how to direct the invisible stuff in conscious directions of good increase that shall always bring to us greater terrains of good being manifested in our lives, rich in the radiance of Divine Life, infused with the Light of Conscious Expectation. For limitless wholeness is the Divine Nature, flowing without ceasing. Good expansion is what life is all about, and what the life force perpetuating itself through us, by means of us, wants to create.

Realize, it is ever our choice as to what that future shall hold for us, and never, not ever, are we subject to negativity, save by our own fears. And as we all know, fear is just as creative as Faith. Strive to live in a perfect alignment with the lustrous Truth of Being.

Every time you think, know you stand at the threshold of Infinite Possibility. At the dawn of a new idea, when you are approaching the great unknown, affirm it good and great, rich in Capacity, Divine Bounty and Grace, and you will be using your powers of the great I Am, the Great Spirit that you are, the fine

EXPANDING HORIZONS OF MIND!

white stuff of the Universe in the way it likes to be used... for greatness, fulfillment, overcoming, never-ending outpourings of manifest good. Know, the Spirit of your vision goes before you.

Right now, declare that you accept no fears, no hearsay that there is something about this great life to be afraid of. Affirm the ever-presence of your good and your God and of your very own being. Accept your authority and priority as a child of the great I Am, working always with the Great All in the All. Can you see that we are not victims of so-called fickle fate?

Yet now, in this way, through deepest heart connection, we become conscious participators in the Highest Ultra Divine Patterns and Laws of Creation and Fulfillment and we have become a part of its glorious movement in, through and by means of our very own lives.

How do we expand our thoughts once we have connected to the Infinite knower of Infinite Good within ourselves? The first is to be willing to receive from the great mind of being a new idea about an old situation or a new situation, so that we are not trying to repeat. For there is nothing in the universe that likes to repeat. Once we have consciously made ourselves open and receptive and willing to let go of all ideas of the past, we are positioned at the right level to receive of the Greater-- and this step of consciously opening to receive of Divine Inspiration is so important. I have found myself at this point many times.

REVEREND DR. LINDA DE COFF

This is the very important step of being willing to let go of all your concepts of the past. For one thing, they indeed served you in the past. They did their perfect work, so how can they serve you now? Even at the greatest points of success, we need to be open to a new and more expanded concept, to catalyze greater awareness and the greater striving to include and fully embrace and own yet another Great Truth. The more of limitless Principle we can incorporate, the more expanded shall be our every good experience.

There is a Law of Use in the Universe that says ideas come to be used. Thus, use them when they come, and then move on to contemplate the far more expanded possibility, exceeding every good of the past... knowing the Universe is rich and in the vastness of its Love is ever providing us with expanded and ever-new possibilities of good, that we may rise to heights unknown.

Whenever I have found myself stuck, chances are I am going to notice that I am trying to repeat an idea. I am trying to get a thing to take form in a familiar way to myself, or as I knew it once, rather than taking a breath, opening up and stepping out in the mind of expansion, and so I encourage you if you see yourself in that mode, to just say: "Okay, I am brave enough, I am willing enough to just let all of this go and just let a new idea, a new and greater possibility, come into my mind", and that is what makes life so much more exciting, doesn't it? Because, now

EXPANDING HORIZONS OF MIND!

we are really into the rhythm of the Universe, and we are constantly expanding and growing, so it is very exciting to live that way, not into repeats.

Once we have cleansed our mind, we are ready to set our vision On High ~ in The High and Holy Place, to commune with Divine Spirit within. For example, let's say you are working on some good you desire to bring into being, and you notice you have some preconceived notions of how it ought to be, how it ought to take place, what it ought to look like. It is then that you go into the stillness and contemplate the Greater Idea.

Center in the great stillness within, and ask your Higher Self in quietness, your Higher Mind, for its greatest idea for you, the highest conception of fruitful outcome possible. See, we can only expand by asking within. We cannot expand by struggling with something out there.

We can only expand by performing the bypass. Bypass the former experience and all outer influence, and then turn within and ask for that idea, that vision, that solution, the greater idea, the greatest possible concept. We have all heard this statement: "The Highest is the Nearest." That also means that God is right where you are. So if you would just turn to that Presence within, you can bypass a lot of the initial formulating stages. Know God is right where you are. All is right where you are. The most fantastic unfoldment for every single Divine

REVEREND DR. LINDA DE COFF

Being, every Glorious Child of God is right where you are, existing as a dynamic capsule of consciousness within you, rich in all ingredients necessary for the most lustrous manifestation.

All we have to do is simply go within: "Hello? Hello? What's next, God?" And, the Divine and incomprehensible one of never-ending wonder will reveal to you the next step, the very best for you. So let us stop looking outside. Let us be Self-Reliant, radically reliant and dependent upon that which we are for every next move in our lives, and if we do this with every new effort that we commence, and we remain in the consciousness and keep checking out with our consciousness within, holder of the greatest concept for each and every one, then you will have a success beyond all measure because you are living the Life of God, which means the many names of good, which means total success, total fulfilment.

In Step One of the Creative Process of Expansion, we ask the Higher Mind for its greatest idea for us about anything, and we are very interested. That is why we get quiet ~ because we are interested in what that mind has to say to us, and we can't hear it if our thoughts are noisy or we are distracted or we are caught up out there, so we become very interested and very still. And we listen with a keen ear for those whisperings of Divine Inspiration, flowing through consciousness and heart, the intuitive guidance that comes to us, and then, when we are in Right Relationship with Divine Mind, in this consciousness of

EXPANDING HORIZONS OF MIND!

Love, the Infinite Supplier of All responds to us by supplying that greater vision, that missing link, whatever you require.

Another great gauge for measuring the worthiness of our ideas as a child of God and Divine Being is to compare it with the Highest Divine Ideal. Hold your vision up and compare it to the greatest prototype of all being, God, always equal to the Highest Concepts we can conceive of. Does your idea measure up to the fullness of Divine Potential in you? Does it speak of Limitless Being? Is it courageous? Does it encompass more good, more joy? Does it surpass every good of the past and take you past a former limitation? Does the stuff of your thinking vibrate with richest and most expanded thought, stretching to envision yourself in new territories of fullness beyond compare...God's Perfect Idea of Wholeness for you? Does it vibrate with increased peace, satisfaction, joy, completeness? Does it reflect the affluent nature of the great Universe you live in? Does it resound with the Dignity, Strength, Light, Life and Love of the Infinite Being you are?

And is your idea colorful? Do you feel strongly about it? You know, our emotions color and give density to our ideas. So if we are feeling wishy-washy about something, and we are saying, "Well, maybe it will happen. Maybe it won't happen. I don't care."...we are leaving our Divine Right to choose the Highest and the Best behind. If one is wishy-washy, the wonderful God-Idea has no power in it, only providing very

limited creative steam for manifestation, but when we feel passionate about something and it's a High Idea, and it's true to our natures, and we will stand in Faith on that idea until it's done, then we are really living according to how we really are, and it is such a much more enormously rich life to live.

When you accomplish your treasured goal from that High vantage point, you really know what you've done as a conscious thinker, and you will be able to apply the Wisdom of Creation over and over again.

You will know that you stood by the Truth, and it stood by you, and you will now forever know the true greatness that you are connected to and that you participate in. So, if your passion doesn't measure up, if you are kind of lackadaisical about your idea, ask God within, your Infinite Self, for a greater idea, something you are impassioned about, for that very passion coupled with your Perfect Faith in the Unlimited and Unbound with which you are one gives you a power transcendent, a power that cannot be stopped.

Seek always the Kingdom of Heaven within. This is another profound statement of mystical Reality, and that you will always hear from sages throughout time: "Seek ye first the Kingdom of Heaven, and all things shall rise to meet you. All good shall be yours." That means going into the High Place in your consciousness to perceive and receive of the lustrous

EXPANDING HORIZONS OF MIND!

Spiritual Truth about you, “I and the Father Are One”... and to link up with that victorious power within you. It doesn't matter what your need is. Whether it is guidance in buying a perfect new dress or item of clothing, scaling the heights of Mount Olympus, or gaining more wisdom on a matter concerning you, that power is the power that is always there to serve you for whatever purposes, and it is equally there for each and every purpose of meaning to you. It doesn't say: I'm going to give you so much for this and so much for that... and that is a better purpose. No.

Anything that you want to attain is as important to the Infinite Self of you as it is to you... for your well-being in all things large and small. For you are One. All power backs you up. Thus, always know and affirm that you are in the consciousness of good and more... that the entire universe backs you up and will find the most perfect way to deliver to you what it is that you desire in your perfect Heart of Faith.

Seek the Kingdom of Heaven within until your idea is fully developed and rings right and true for you. Now you see how we are expanding our relationship with the Universal Mind of Being, no longer thinking with just our individual minds and having self-conversations. We are conversing with the real thing, reaching upward to commune with the Divine Source of every single manifestation there is. We are opening up and lifting the scopes of our horizons to include greater vistas of Divine Ideas.

REVEREND DR. LINDA DE COFF

Another aspect to be keenly aware of is that any idea embodying settling for less, making do, compromise of good in any way or of joy in your life is not for you. For God never says to you; "I am short on stars today or short on light molecules today." That field of Infinite Resource knows no limitation, no shortage, no time of off-duty. There is no time off for the Infinite Provider, nor any need of the same. There is no time where God says, "Look, I need to take a rest. Don't bother me right now. I am unavailable. Don't call." Such a response is impossible, for the Infinite Provider moves continuously by its very nature in prolific action of increase and manifestation with effortless ease and grace... not one sense of fatigue, of tiredness in any way... for the fountain of life itself is ever manifesting, ever pouring out.

We all have those moments when we get fatigued and tired and this fatigue is from the suppression of all of those conflicting thoughts that we are constantly suppressing. It is only these negative notions that are bogging us down, causing one to then have to go and sleep them off. We have to take a time of rest from all those burdensome thoughts, impinging on the luster of the Divinely Desirable Idea. Yet, in the Reality of the pure Life of Spirit that all are, there is no such thing as lack of enthusiasm. There is no such thing as lack of energy or unavailability. There is only never-ending life expressing and unfolding without obstruction, freely moving, and that pure

EXPANDING HORIZONS OF MIND!

Essence of the Divine Self is what you are really one with. And, with just a little practice of tuning up to the Great Reality, you can live with this effortless ease in the consciousness of the completeness of being always and ever.

We are vigilant in our observation of the ideals and ideas that we are using, and giving our great power to ~ ever looking to free those ideas that may be lurking somewhere in consciousness of restrictiveness. Wherever we find them, we want to hold them up to the scrutiny of Divine Mind and Ultimate Truth, i.e. "If it is not true for God, then it is not true for me."

When searching the sub-consciousness, be a good detector. If you hear your own mind offering up a limitation to you or you hear your mind falling into a pattern of giving up, say, "No!" Be vigilant and replace it with a right idea for you. For, in Truth ~ all there is 'is' God within you, God as you, the great power of the universe expressing uniquely and magnificently as you. All of your life goals and quests are goals and quests of spirit.

Every noble aspiration is the Divine impulse that continuously stirs within you, wanting to express, wanting to make a great statement through your life about light.

Each life is dear, is beloved by the Infinite Source, and whatever you are seeking, know that God within you wants that

REVEREND DR. LINDA DE COFF

for you, wants to make a great statement about the Power and Grace of life by means of you.

As we practice, consciously, continuously, the enhancement and embellishment and expansion of our good ideas... what happens is that we become more and more one with the cosmos, more and more harmonious, more and more powerful and flowing, more and more reflecting in our lives the great Truths, which we are.

Our entire molecular structure of being, our entire vibratory pattern, raises now to joyous God-levels of being, and we move with greater lightness, for we are that which cannot be stuck. New and glorious levels of Freedom are attained, for we are now one with that which cannot be bound. Crystal clarity and discernment becomes ours. We cannot be deceived, nor know defeat.

Now, we are actually living on Higher levels of Reality, manifestors of the Great Reality of being.

I was reading in *The Life and Teachings of the Masters* about the Crystal Race, a race of humankind that once was. And in the Crystal Race, they knew no negative words. Just think about it. Not a negative word was in their Webster's Dictionary, not a negative thought. And they did not use negative words in thought or speech. And they also lived in the totality of the now, with no idea of past or future.

EXPANDING HORIZONS OF MIND!

They only recognized all of life, right here, right now, the eternal, entire ever- presence of God being, the totality of life, full and complete now, completely made manifest now.

Not some time later, yet *Right Now*.

Let this completely manifest body of creation work for you. Know, when there is something that you desire, it is God-in-you saying; "I have it for you now." It is the voice of the Divine-in-you just waking you up. "I have this wonderful new good for you now." It was never intended that you wait and wait and wait. Those of the purity of the Crystal Race didn't know about waiting and waiting for Godot, nor denial of any sort or making do. Those in the Crystal Race didn't know about past and future. They didn't know about obstacles. They never thought about them. These pure beings only knew all of manifest creation now circulating throughout their being. And so, let it be for you.

Thus, practice developing the consciousness of your good now, recognizing the presence of all good now, so that you may accelerate your particular good, and bring it into being at once and more Perfect than can be known. And think about this fact. You could not even think about any good thing unless it was already existing. You couldn't think about it, unless you already knew that it was. So why go further? Why delay? Have it now, embracing in heart and soul, even before it has appeared.

This is a great metaphysical concept to understand.

REVEREND DR. LINDA DE COFF

How can we help God help us to realize greater levels of liberty and fullness? As metaphysicians devoted to manifestation of Highest Truth, strive to cultivate the consciousness that recognizes: "All my good is now, all my good is now. It is already manifest now." And that is why in Treatment we say, "I give thanks for it now." Here we are not trying to push it into being, but recognizing that the Good sought is now.

It is incumbent upon us, in realizing complete freedom and expansion, to consciously remove from all thoughts any latent ideas of laborious time and space and distance. For in God, all is simultaneous. All is now. All is created. Creation is now. The ever-availability of creative responsive substance is now, not some time later, not after God eats dinner, or after he takes care of so-and-so and so-and-so and so-and-so.

When I was a child, I used to think that since I was the oldest of seven that all my siblings had to get taken care of first. That one had to get taken care of, and then that one, and then that one, and then they would finally get around to me, so that became my concept of God. One's concept of God becomes experience. When I realized that the Infinite could have as easily fed all seven at the same time with no problem whatsoever, my whole life changed. You see how all results rest in your idea.

We recognize the availability of creatively responsive substance now, and in it, we claim we know that we live and

EXPANDING HORIZONS OF MIND!

move and have our being every so infinitely. We can never be separated. We do not permit any event or any outer circumstances to separate us from our right to goodness, our right to the God life. And so we are in constant dialogue with the omnipotent, all-capable source of our being through going within. If we catch ourselves futurizing our good, as if the Allness shall be sometime later, sometime down the line, we just recognize that and re-affirm the Presence of that Good now.

Have you ever heard of the phrase; "Your ship will come in." My father used to say that to me: "I know your ship will come in", pointing to some future time. "It will come in." Although it definitely was a statement of his belief and Faith in me, I finally nipped that in the bud, realizing the power of the word and what that was really was saying, as I joyfully announced, "It has landed, Dad. It is in." I nipped that in the bud, for all is truly now.

And so, with every prayer, let us affirm this, too. "I already have it. I know it is!" "I know it is coming forth perfectly." No more futurizing for us.

For us our good is now, and we consciously bring our good into the now, declaring that we realize it is all now and that we have paved the way, knowing that we are prepared. We have prepared the way to receive our good now. We are ready. We are ready to welcome the new flow of bounty, to walk in it. For God

REVEREND DR. LINDA DE COFF

would give us, now, of an Infinite Bounty, and its endless Ways and Means, so realize ~ whatever good you're thinking on now, after that has already taking place, there is much more on the way, so we can never run out of good. Isn't that great to know?!

Cultivate a habit of acceptance and also making conscious room to receive. Get ready. Have that inner mind that is expecting that wonderful thing, and so here, at this elevated level, you are properly conditioning the stage, where the event can take place in ease. When you are preparing a stage for a performance, the set and the props and the whole thing...this preparation is so that the thing of the whole performance can flow rightly within the language of the play. When you are preparing your minds and setting the stage for the next greatest phase of your life, in which you shall play a major and evolved role, you want to fill it with good thoughts and feelings.

Clear out of your life anything that might act as an obstruction to the perfect flow of good into your life, and then keep affirming and recognizing, "It is now. It is now. All my good is now! Thank you." And, so it shall be.

~

Now, let us close with an elevating meditation for each one of us to put into practice what we've been speaking about, so let us go within.

EXPANDING HORIZONS OF MIND!

CLOSING CENTERING MEDITATION

And each one, select an idea, a heart's desire that you've been working on that perhaps you've been feeling separate from. And let us ask our Higher Selves within for a greater, newer idea here for us.

Now, whatever has come up for you, when it first comes up, bring it all the way through in your mind's eye to total blissful accomplishment, satisfaction, and beingness.

Resting now in the completeness of Divine Peace and Satisfaction...we say Thank you, God, Spirit, for that which thou hast revealed.

And So It Is!

~

Did that make a difference for you? Now, any time you want to create the new, know this is the very starting point and the actual act of creation. This is how we create, not by struggling out there but by going within, and contemplating the vision of good. Then we move into doingness. When we have the Divine Impulse, we respond and move into right inspired action. You see, it is a very different way. A very different way to be. And I highly recommend it. I can't tell you how great it is to tune up to the Divine Idea because it is very easy to get caught in appearances, and so to keep ourselves at the right level to

receive, we need to do a daily release, followed by constant tuning-up to the purity of the Highest Divine Idea.

~

Let us once again go within now and do a closing I Am Statement, allowing the words we speak to permeate all of being.

Right now, let each draw a deep breath, coming into the center of all existence. At the perfect source of all being, All Light, All Love...we say within:

HELPFUL INSTRUCTIONS FOR BEST USE

For strongest use of each talk provided, establish a major goal you would like for yourself, not thinking of how this may be accomplished or limiting in anyway.

Describe this goal to yourself in the most radiant detail, and then simply write it out, Giving Thanks that it is being established in the now and speaking in the present tense, i.e. “I Give Thanks I now have _____ (Fill in and describe), I Give Thanks I now Am _____ (Fill in and describe), I Give Thanks I am now manifesting _____ (Fill in and describe), etc.

Refer to your wonderful goal often, as long as you are working on any given talk. Whenever in doubt, simply turn within, *Giving Thanks* and once again describing to yourself in full. This definite action of spending quality time contemplating your goal “as if you have it now” serves to build the new prototype in your consciousness and heart, the new cup of acceptance, and before you know it ~ there it is... right there in your manifest world.

SUMMARY DESCRIPTION

“ATTAINING DIVINE CONSCIOUSNESS”

VOLUMES I-IV

Each talk highlights a particular theme. Volume I concentrates on the very first steps necessary for “Evolving Upwards In Mind” and discovering the true Divine Essence of who you really are. These talks will help you to set a new and radiant base line of connection within, from which you may now manifest your every good and enjoy the limitless bounty always available to you. Volume II follows with exciting talks on the “Divine Creative Laws” and how to most successfully manifest your good.

Each offering includes soaring meditation excerpts for your daily use and for maintaining consciousness at the Highest Level, as you continue to unfold the lustrous Truth of your limitless Divine Nature ~ transcendent of all past influence, ever one with the Most High.

To develop strong focus on the attainment of any goal, Dr. Linda suggests that you write out in detail the optimum good you are Giving Thanks for, even before you have received....always speaking in the present tense and as if you have the thing desired right now. This is a very important step for actualizing your most cherished goals and for achieving quantum leaps never before experienced. Gratitude – in – Advance is the yeast that raises the dough, and there is nothing God-in-you cannot achieve.

For example: If you are wanting wonderful new work, begin to Daily Give Thanks that you have a wonderful new position with wonderful pay, and then describe to yourself the conditions that will surround, thinking in terms of the most optimum conditions of

NEW THOUGHT INTERNATIONAL, INC.

wholeness, peace and fulfillment that you can conceive of, not wondering how. This will form a prototype of Divine wholeness in you, magnetic to optimum conditions of good; Follow this step with your statement of Gratitude: “Thank you, God ~ I now have.....(Fill in the Blanks)” for our word is Law and acts to magnetize to us what we are focused on.

Thus, whenever you are working on a new subject, always write out your “*Gratitude-In-Advance*”. And, as you then daily reference your most constructive goal, and then say the heartfelt words of your meditations, consciousness will strengthen and evolve to be at the place where you need to be for your manifestation to come forth.

Let your journey of raising consciousness be a delightful process ever upward, embracing the *Kingdom of Bliss* that has always been yours, more fruitful than ever known.

In Divine Consciousness, there is no limit to how much you can achieve.

LOVE & LIGHT PROFOUND, being the fullness of your Divine Self!
